# Welcome

GeoNode is an open source platform for sharing geospatial data and maps. If you have any questions about the software or service, join our [mailing list](#).  
Need help? [Getting Started](#)

## 1 Layer

Click to search for geospatial data published by other users, organizations and public sources. Download data in standard formats.

[Add layers »](#)

## 3 Maps

Data is available for browsing, aggregating and styling to generate maps which can be shared publicly or restricted to specific users only.

[Create maps »](#)

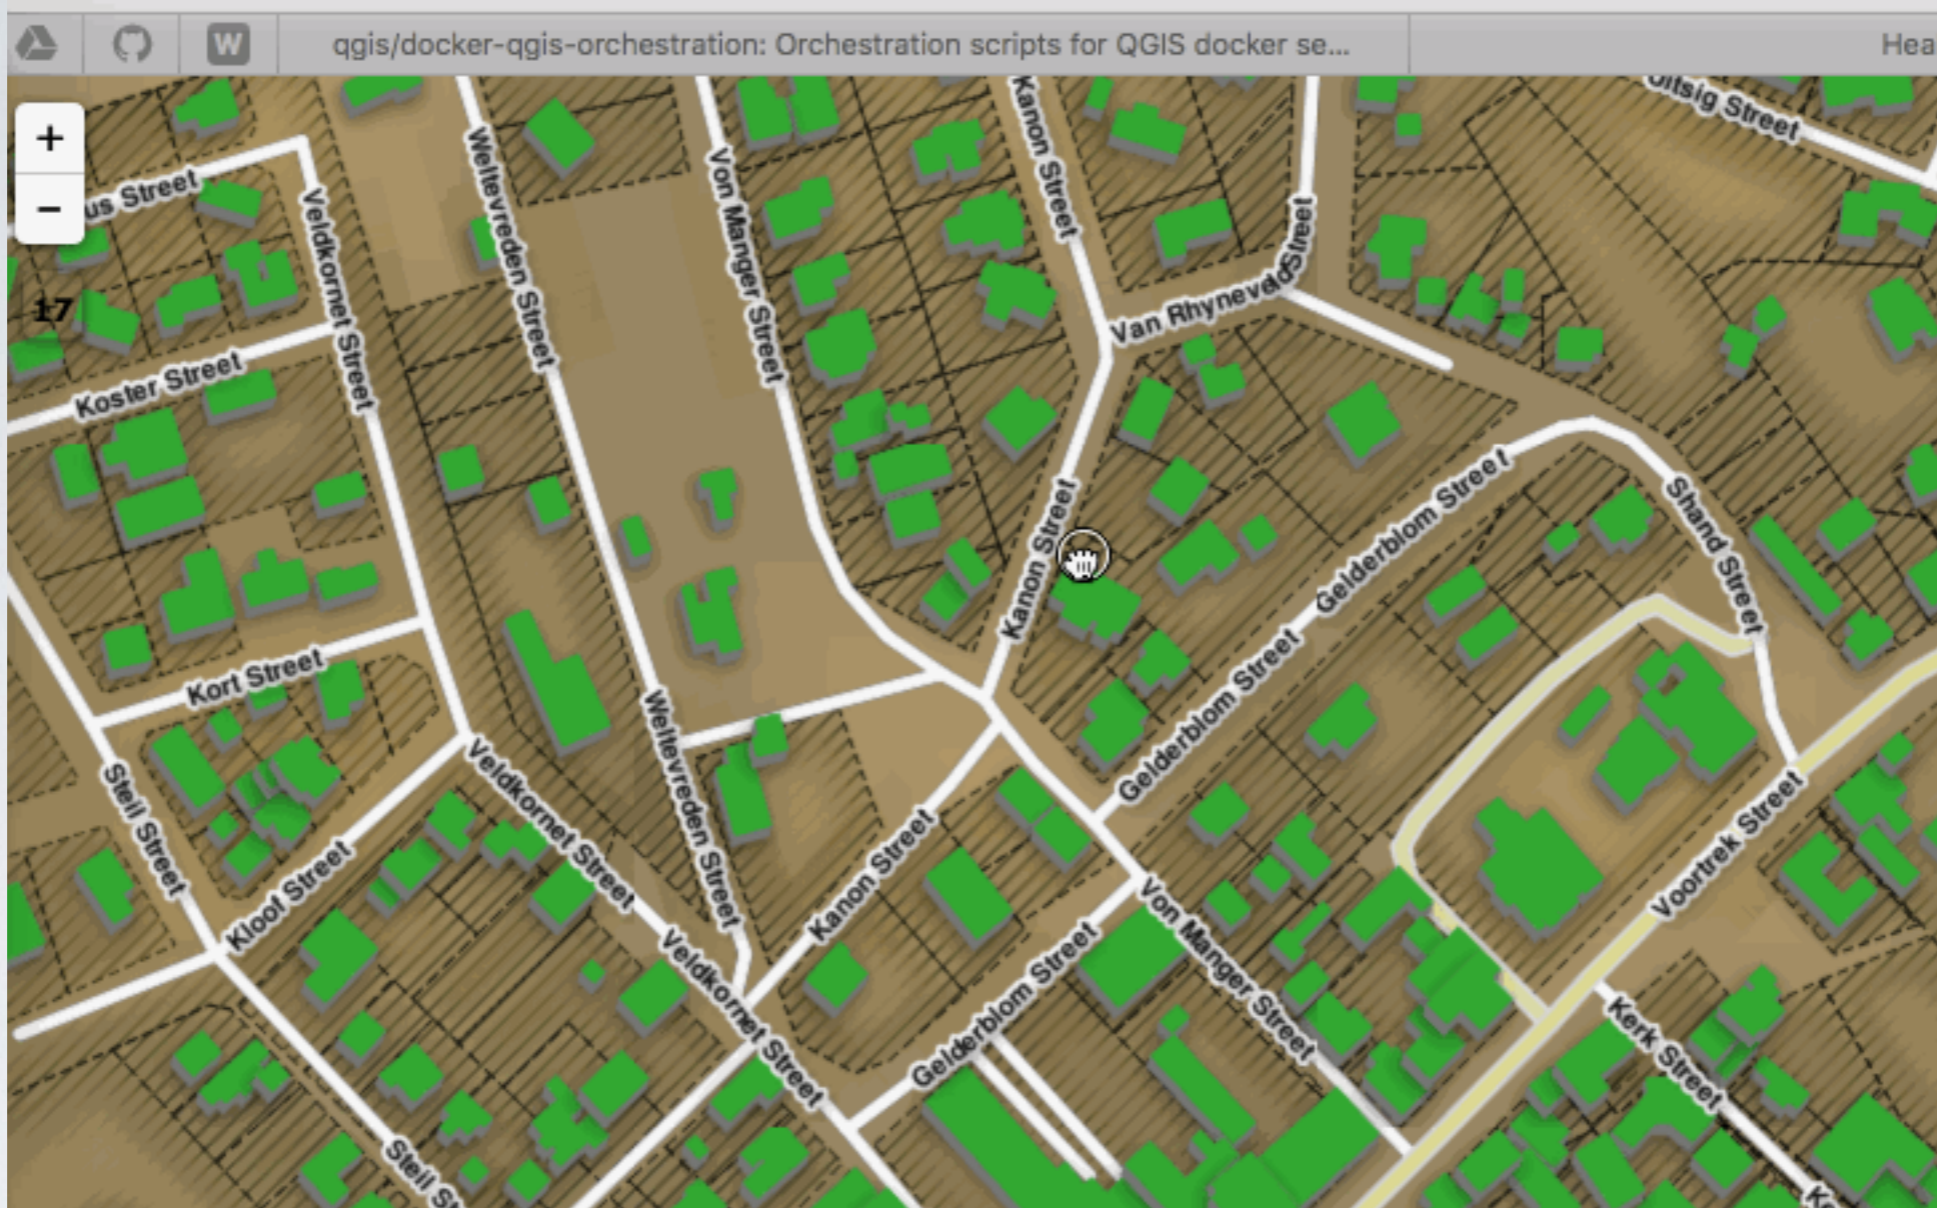

## 3 Users

GeoNode allows registered users to easily upload geospatial data in several formats including shapefile and GeoTiff.

[See users »](#)

Looking to the future

An abstract graphic featuring a white background with several curved, overlapping shapes in shades of green and yellow. A thick black line curves from the top left towards the bottom center. A grey shadow is cast by one of the green shapes.
